## STALLION FERTILITY STATISTICS

All statistics shown are based entirely on the information contained in the 2016/2017 Return of Mares

<b>TOTAL COVERINGS</b>	Shows the number of registered Thoroughbred Mares covered by the Stallion during 2016/2017 breeding season.
<b>LIVING PRODUCE</b>	Shows the number of mares which produced colts or fillies in South Africa and Zimbabwe, mares coved abroad, and twins which are counted as one in calculating the fertility percentage.
<b>DEAD PRODUCE</b>	Shows the number of mares which produced foals of either sex that have subsequently died, together with mares which aborted, slipped or produced dead foals.
<b>BARREN</b>	Shows mares which were covered but not confirmed to be in foal
<b>NO RETURN</b>	Shows all mares for which no Official Stud Book Return has been received by 31 July 2017 together with those mares whose owners have submitted incomplete returns not in accordance with the conditions of Entry to the General Stud Book of Southern Africa.
